

## **REPORT ON E- SUMMIT**

Selected students with Faculty-in-Charge of Entrepreneurship Development Committee attended the E-Summit on 19<sup>th</sup> & 20<sup>th</sup> January 2019 hosted by IIT Bombay. E-Summit is one of India's largest business event, E-Summit is the flagship event conducted by E-Cell, IIT Bombay. The theme was "A Paradigm of Disruption". The event was a conclave of competitions, workshops, panel discussions and speeches from the biggest names in the world of business. Starting from a humble beginning as a fledgling idea the event has seen phenomenal rise into the towering edifice it is today about fourteen years later. The students spent two memorable days of immersion into the great grand world of entrepreneurship.

The essence of business relies on its inherent dynamic behavior. This capricious nature of business must not be confined to the shackles of a fixed set of rules. This year the thought process was initiated in order to ignite the fire with hope to radicalize schools of thought preaching a 'formulaic' approach to Business. Through various thought provoking speeches this idea was propagated. This tradition espoused by E-Cell, manifested itself, into the theme of E-Summit '19, "A Paradigm of Disruption".

The event was marked by some of the most enriching and enlightening panel discussions, workshops and interactive sessions with successful and distinguished entrepreneurs and corporates. For start-ups and tyro entrepreneurs there were parallel events like mentoring sessions and start-up showcasing. The summit also hosted the finals for 'Eureka!' - Asia's largest Business Plan competition. Further, the Summit also included events like Idea Storm, Ignite, Business Stimulation Game, etc. meant for the raw and fresh minds in this field
