Report of the work related to AICTE/Mumbai University by Prof.Sandeep Kudtarkar

AICTE

- 1)IRM-AICTE collaboration to further Enterprise Risk Management(ERM) education in India

Context

Risk is part of all our lives. As a society, we need to take risks to grow and develop. From energy to infrastructure, supply chains to airport security, hospitals to housing, effectively managed risks help societies achieve their objectives and vision. In a fast-paced world, the risks we have to manage are evolving quickly with many inter-connected events consolidating and creating a catastrophic impact on individuals, organizations, and economies. We need to make sure we proactively manage these risks so that we can minimize their threats and maximize their potential.

While traditional risk management focuses on the analysis of limited areas of risks, Enterprise Risk Management (ERM) is an integrated and joined-up approach to managing risks across an organization and its extended networks. The Institute of Risk Management (IRM), world leader in ERM qualifications and examinations (Level 1 to 5) across 140+ countries defines ERM as a process that aims to help organizations understand, evaluate and take action on all their risks with a view to increasing the probability of success and reducing the likelihood of failure.

"The Covid-19 crisis has made everyone in the education sector realize risk management pretty well in terms of continuance of classes,

For Shrija Raheja School of Business

examinations admissions and new academic sessions. AICTE & IRM being the world leader in ERM professional Qualifications across 143 countries have partnered to prepare institutions for the uncertain world and make students risk-ready with an important skill of risk management."

Prof. Anil D. Sahasrabudhe – Chairman-AICTE

"We invite AICTE approved institutions to make the most of this collaboration and participation in all initiatives. With IRM's examinations now available at 360 exam centers in India and the introduction of National Education Policy 2020, there couldn't have been a better time for your students to the IRM India Affiliate and AICTE publication will help us decipher the need for the literacy and enterprise education in India."

CEO-IRM India Affiliate

- I) Prof. Sandeep Kudtarkar on behalf of SRBS has participated in by-Invite online survey and shared thoughts that would support the IRM-AICTE research publication on risk-literacy and risk-intelligence in Indian Higher Education Institutions.
- II) Prof. Sandeep Kudtarkar on behalf of SRBS attended the webinar on "Enterprise Risk Management in a post-Pandemic world" organized by ASSOCHAM on Monday June 21, 2021 at 3PM.

While traditional risk management focuses on the analysis of limited areas of risks, Enterprise Risk Management (ERM) is an integrated and joined-up approach to managing risks across an organization and its extended networks. The Institute of Risk Management (IRM), world leader in ERM qualifications and examinations (Level 1 to 5) across 140+ countries defines ERM as a process that aims to help organizations understand, evaluate and take action on all their risks with a view to increasing the probability of success and reducing the likelihood of failure.
