Subject: Implementation of Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.

Sir/Madam,

As you are aware that the Government of India is committed to promote gender equality and women empowerment across every sector and preventing all forms of violence against women that negatively impact gender equality and human dignity. The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 upholds women's fundamental right to equality as guaranteed under Articles 14 to 15 of the Indian Constitution, the right to live with dignity under Article 21 and the right to practice any profession or to carry on any occupation, trade or business which includes right to a safe and secure working environment free from all forms of violence and harassment, as provided under Article 19 (1) (g) of the Constitution of India.

With improved access to education, skilling, and employment opportunities, millions of Indian women are entering the country's workforce. It is crucial that as a country we provide all women with a safe and secure work environment. It is the responsibility of every employer, whether in public or private and in organized or unorganized sectors to ensure compliance with the provisions of the Act. The employers are also mandated to conduct sensitization workshops for their employees periodically to make them aware about the provisions of the Act and towards the need for upholding the dignity of women and end gender stereotypes so as to encourage more and more women to participate in economic activities. This will contribute to the realisation of gender equality and result in inclusive growth for the benefit of individuals, the family and nation as a whole.

In view of the above, the following activities are to be conducted in all the AICTE approved institutions from 25.11.2022 to 10.12.2022.

- To conduct sensitization workshops for their employees to make them aware about the provisions of the Act.
- To observe the 25th of November as the International Day for the Elimination of Violence against Women.

ABOUT THE CONFERENCE

In this VUCA environment where we are permanently looking for instant gratification, it is quite challenging to connect with our own emotions and open ourselves to others' experiences and requests for any kind of assistance and support. It takes a lot of courage to inwardly listen to our emotions instead of sweeping them under the rug and accepting them compassionately.

The pandemic has left an indelible mark globally. It is therefore essential to gain training in E.I. to have better physical and mental health. It directs the mind towards "Responding rather than Reacting."

This conference shall bring together leaders from across business and coaching to achieve a better understanding of why emotional intelligence is important and how to apply E.I. around us.

No suggestions

Overall things are good till now.

Not qualified enough to suggest

Relate banking in finance

Competition in specific specialized field

Well I have no topics right now but will let my professor's know if any

I think gift/prize should be different, if one student take part in all events he will get the same book 3 time what he will do with 3 books.. it's just a suggestion.

All things were great

Should incorporate some games to make it more interesting

Session on Program Outcome & Course Outcome Mapping & Attainment Level

A session on Program Outcome & Course Outcome Mapping & Attainment Level was conducted on 26th July 2022 from 1:00 pm onwards in the Computer Lab on 4th Floor. The purpose of the meet was make Faculty Members aware of the process of how the course outcome gets mapped with the program outcome and how does the attainment level is achieved.

The program started with description of Course Outcome. Course Outcomes are the statements that declare what students should be able to do at the end of a course. POs are statements about the knowledge, skills and attitudes of a management program. Bloom's taxonomy of thinking and learning illustrates forms of thinking, in ascending order of complexity, from lower-order thinking skills to higher-order thinking skills. It attempts to classify learning stages from remembering facts to creating new ideas based on the acquired knowledge. The idea of Bloom's Taxonomy is that learning is a consecutive process. Before applying a concept in real life, we must understand it. Before we understand a concept, we must remember the key facts related to it. Hence, it begins with remembering and ends with creating. This is used by Faculty Members to set Course Outcomes.

The CO-PO mapping is done with correlation levels of 3, 2, 1 and 0. 3, 2 and 1 denotes substantially (high), moderately (medium) and slightly (low). The meaning of 0 is no correlation between CO and PO.

First of all the Correlation matrix between CO & PO is developed. Using the correlation level of 3, 2, 1 and 0. The next matrix is developed which gives contribution of marks with each COs. These marks have two components Internal and External. The Internal Component is further sub-divided into four components with each component carrying 10 marks. These components are basically the evaluation that takes place for calculating the total Internal Marks. These components could be anything for example attendance, assignment, tests etc. The External component is the written examination that students appear for at the end of the semester. After the marks contribution is done, the correlation matrix is developed which maps the COs with the Internal and External Components

described above. The students marks of Internal and External components is then correlated with the COs. After all these the final matrix of attainment level is calculated. Average value is taken for each CO. Average CO value is calculated by sum of value entered in each column is divided by number of CO mapped in each column.

Awareness Session on Health and Hygiene

HR Club in association with the Women Development Cell organised a session for the management students of BMS and MMS to engage in awareness, advocacy, and knowledge-sharing around the importance of menstrual hygiene management. It was held on 15 December, 2022 in the seminar room and smart classroom for girls and boys respectively.

There are many taboos/myths related to menstruation, and this session aims to break all taboos and raise awareness among individuals and everyone who menstruates and the one who doesn't. It is conducted so that people could understand menstruation is not a curse, rather it is a gift and proper hygiene is important.

The main objectives of celebrating this day were following:

- To break the silence on menstruation
- To raise awareness on importance of menstrual hygiene management
- To advocate the MHM (Menstrual Hygiene Management) friendly environment

The sessions were conducted by Ms. Mehak Kaushik, Manager at The GlobalHunt Foundation and Ms. Roshnee Bhowmick, CSR Executive.

Ms. Mehak Ms. Mehak Kaushik started her career by undertaking a research of 1500 children in the largest resettlement colony of Delhi. Here she got an experience as to how children need interactive models within their learning to achieve a basic level of comprehension. At GlobalHunt Foundation she further expanded this experience where through diverse social level projects a change was planned within the target community. She holds her highest degree of Masters in Sociology from Delhi School of Economics and is well versed with social concepts and systems.

Working with Unicharm India since 2018. Mainly responsible for all CSR activities in West Bengal. Campaigning for Menstrual Health and Hygiene management in West Bengal mainly in educational institutions, non-profit organizations and in the community level as well. Has conducted more than 300+ sessions on Menstrual Health in educational institutions and grass root level in Kolkata. She graduated with Psychology (Hons) and holds a Master's Degree in Social Work. Worked in the area of child protection & health for more than 6 years. Represented the state at NIPCCD on child protection issues.

educational opportunities, health and overall social status of women and girls around the world. As a result, millions of women and girls are prevented from reaching their full potential. The speakers ensured all the queries of the students were answered correctly and without hesitation.

Hence, it is essential to break the silence, raise awareness and change negative social norms around Menstrual Hygiene. It is possible to create a world where no one is held back because they menstruate. This means a world menstruation can be managed safely, hygienically, with confidence, and without shame; everyone can access and afford the menstrual product of their choice. Period stigma is a thing of the past; everyone has basic information about menstruation; everyone can access period-friendly water, sanitation and hygiene facilities everywhere.

The Principal

Greetings from GlobalHunt Foundation.

I would like to take this opportunity in introducing GlobalHunt Foundation (www.globalhuntfoundation.org) a section 8, not-for-profit, registered under The Indian Companies Act 1956. **Carrying forward the CSR mandate of one of our corporate client Unicharm India we would like to conduct 45 minutes menstrual hygiene training for girls of your respective school/college.** The session will be conducted by our corporate partner, Unicharm India, a leading Japanese firm in India, existing in the market with the names of Sofy and Mamypoko pants.

For past 5 years under the CSR initiatives the company have been undertaking menstrual hygiene among school girls across Bangalore, Delhi, Indore, Jaipur, Jharkhand, Kolkata, Lucknow, Nasik, Nagpur, Pune & Shimoga so as to build the knowledge of girls on the subject of menstruation.

The session entails a comprehensive understanding on the what, why and how of menstruation comprising of meaning of menstruation, develop a biological understanding, talk on related social taboos and aware them on hygiene practices to be maintained during menstruation. **Given the uncertainties of the current time we suggest if through virtual conferencing mode the session can be taken for girls.**

In this respect we seek your kind availability of date and time where the Unicharm team can conduct the knowledge session with the school girls. **Please note we do not charge anything from the school or college for the session.**

**For Sheila Raheja School of Business
Management & Research**

Look forward to hear from you.
