Barclays Bank UK PLC

No. of Students present: 120, Div. A: 59, Div. B: 61

No. of Faculty member: 01

Mode of conduct: Offline

### Objectives:

1. To introduce students to Tableau as a powerful tool for data visualization and business analytics.
2. To equip students with practical skills in connecting, cleaning, and preparing data from various sources.
3. To demonstrate how to build meaningful and interactive dashboards for effective decision-making.
4. To enable students to tell compelling data-driven stories using charts, graphs, and maps.
5. To build student confidence in using Tableau for academic projects, internships, and future career roles in analytics.

### Workshop Overview:

This workshop focuses on equipping students with the essential tools and techniques required to interpret and visualize data using Tableau. Through a mix of conceptual understanding and hands-on practice, students will explore various aspects of data storytelling, dashboard creation, and business insight generation. Emphasis will be placed on how these skills can boost employability and contribute to career advancement, especially in roles related to business analytics, marketing, finance, and operations.

### Key Topics Covered:

1. Data Connectivity & Cleaning: How to connect to multiple data sources (Excel, CSV, databases) and prepare data for analysis.
2. Data Visualization: Building effective charts, graphs, and maps to represent different types of data.
3. Storytelling with Data: Tips and techniques to simplify insights and communicate data in an engaging and meaningful way.
4. Visual Analytics Techniques: Drilldowns, sorting, grouping, filtering, and use of parameters to enhance interactivity.
5. Dashboard Creation: Designing and packaging visualizations into professional dashboards for reporting and presentation.

### Workshop Outcomes:

By the end of the workshop, students will be able to:

1. Understand the fundamentals of Tableau and its role in the data analytics ecosystem.
2. Connect to different types of data sources and clean datasets effectively.

3. Create and customize visualizations to derive and present business insights.
4. Use analytical features like drilldowns, filters, and parameters to explore data interactively.
5. Develop and present a professional Tableau dashboard that can be used for academic or career-building purposes.
