Dear Sir,

Tata Memorial Hospital (TMH) being one of the largest cancer centres in this region and a Grant-in-Aid institute under the Dept. of Atomic Energy, Government of India treats over 70000 patients with cancer annually. Many of these patients come from economically challenged backgrounds and more than 80% of them travel from outside Mumbai requiring prolonged stays (6-12 months) to undergo cancer therapy. The hospital extends various kinds of support including finance, accommodation, blood transfusion support, nutrition, psychological counselling etc.

There is a huge need for blood components (blood and platelets) in the hospital every day. This is in view of the fact that the hospital treats a large number of patients with cancer. Among the many vital aspects of comprehensive cancer care, ensuring a sufficient and readily available blood supply is of utmost importance. Blood transfusion plays a crucial role in treatment of patients with cancer, particularly during chemotherapy, surgery and radiotherapy in addition to other medical interventions including stem cell transplant to fulfill the huge blood transfusion requirements. For these patients, TMH blood centre relies on voluntary blood donors.

Hence, there is a constant need for organizations to collaborate with TMH to conduct blood donation camps at large housing societies, corporate offices, colleges etc. The number of blood donors visiting the hospital is less amplifying the need for more organizations to conduct outdoor blood donation camps in collaboration with TMH.

Hence, we humbly request your esteemed organization to consider arranging a blood donation camp at your premises. Medical Social Worker (MSW) from the Department of Transfusion Medicine, TMH will be the contact person for coordination and successful execution of the blood donation camp. It includes understanding the expected number of blood donors, inspecting the venue, providing materials for blood donation awareness etc.

Once, the blood donation camp is confirmed, request you to provide the following details:

1. Organisation Name
2. Expected number of donors
3. Venue details
4. Date and Time
5. Organisation name to be printed on blood donor cards (within 19 letters limit).

According to National Blood Transfusion Council guidelines (NBTC), Approximately 3-4 hours are required to manage 50-70 donors and 5 to 6 hours are required to manage 100 to 120 blood donors. Kindly confirm your camp timings as per the expected donor turnout. The TMH team will do all the necessary arrangements on the day of blood donation camp.

Your collaboration with TMH can make a significant difference in fulfilling the vital requirements of blood components for our patients with cancer who seek hope of cure and support during their challenging times. As currently, blood has no substitutes, only a healthy human being can help the lives of patients suffering from cancer. We deeply appreciate your support towards this noble cause.
